ORDER UPON EMERGENCY MOTION FOR CLARIFICATION

By the Commission:

The instant docket sets the standards for Commonwealth Edison Company's ("ComEd's") Purchase of Receivables with Consolidated Billing ("PORCB") program. On December 15, 2010, this Commission issued a final Order in this docket. On February 9, 2011, this Commission issued an Amendatory Order which consisted of the entirety of the December 15, 2010 Order and an additional paragraph on page 25 therein.

On February 15, 2011, Commission Staff filed an Emergency Motion seeking clarification of certain language in the February 9, 2011 Amendatory Order. Therein, Staff contended that certain language appeared to be inadvertently placed in the February 9, 2011, Amendatory Order. ComEd made a filing on February 16, 2011, in which, it agreed with Staff. Additionally, on February 17, 2011, Dominion Retail Inc. filed a Response to Staff's Motion for Clarification. In that Response, Dominion also agreed with Staff.

After having reviewed these filings, we agree with these parties that certain language was inadvertently placed in the February 9, 2011 Amendatory Order. We therefore clarify the February 9, 2011 Amendatory Order as follows:

Page 5 Paragraph G, which is Entitled "Use of Rider UF to Determine Percentage Reductions for the Recovery of Uncollectible Costs" should be amended to add, at the very end of the paragraph: "However, use of Rider UF is only a starting point regarding the correct amount of uncollectible costs; the actual amount of uncollectible costs to be recovered by ComEd shall be in accordance with the language on page 25 of the Amendatory Order of February 9, 2011, where this issue is discussed."

Page 25, Second full paragraph, should be amended to read as follows:

~~Additionally, to aid in the sustained profitability of retail electric suppliers in ComEd's territory, which could help to ensure that competition endures and thrives in Illinois, we decrease the discount rate in the manner that was proffered by Commission Staff as an alternative to Staff's original proposal. We conclude that Staff's alternative recovery charge of 0.44%, as opposed to 0.68%, should be imposed here. Also, It is also in the best interests of Illinoisans in ComEd's service territory if there were one single charge for uncollectibles, as opposed to one uncollectible charge for residential customers and a different uncollectible charge for commercial customers. ComEd shall amend its tariffs to reflect this charge, which is 1.8453%.¹ When this figure is added to 0.44%, it yields a discount rate of 2.293%. (0.44% + 1.843%).~~

IT IS THEREFORE ORDERED that the Order entered by the Commission on February 9, 2011, is hereby clarified, as is set forth herein. In all other respects, the Order remains the same and in full force and effect.

IT IS FURTHER ORDERED that subject to the provisions of Section 10-113 of the Public Utilities Act and 83 Ill. Adm. Code 200.880, this Order is final; it is not subject to the Administrative Review Law.

By Order of the Commission this 23rd day of February 2011.

(SIGNED) MANUEL FLORES

Acting Chairman

¹ This amount is taken from a filing made by ComEd on November 8, 2010, in which, pursuant to an ALJ's Post-Record Data Request, ComEd calculated the weighted average of its residential uncollectibles and the uncollectibles for its small commercial customers. Therein, ComEd also combined those two weighted averages.
